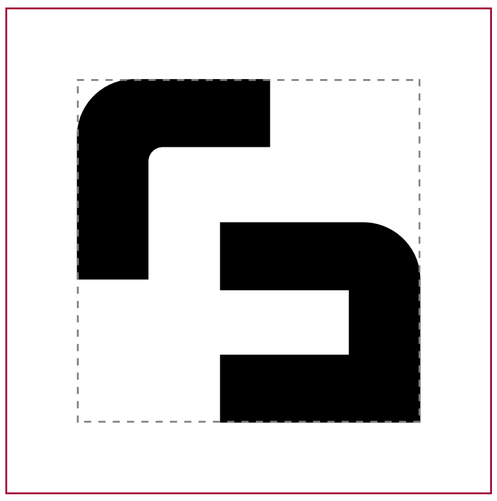
FORMAGLYPH / IDENTITY 02

# A system, not a sticker.

Use one master. Keep the pair together. Give it room.

01 / CLEAR SPACE



## x = 40 units / standard vertical stem

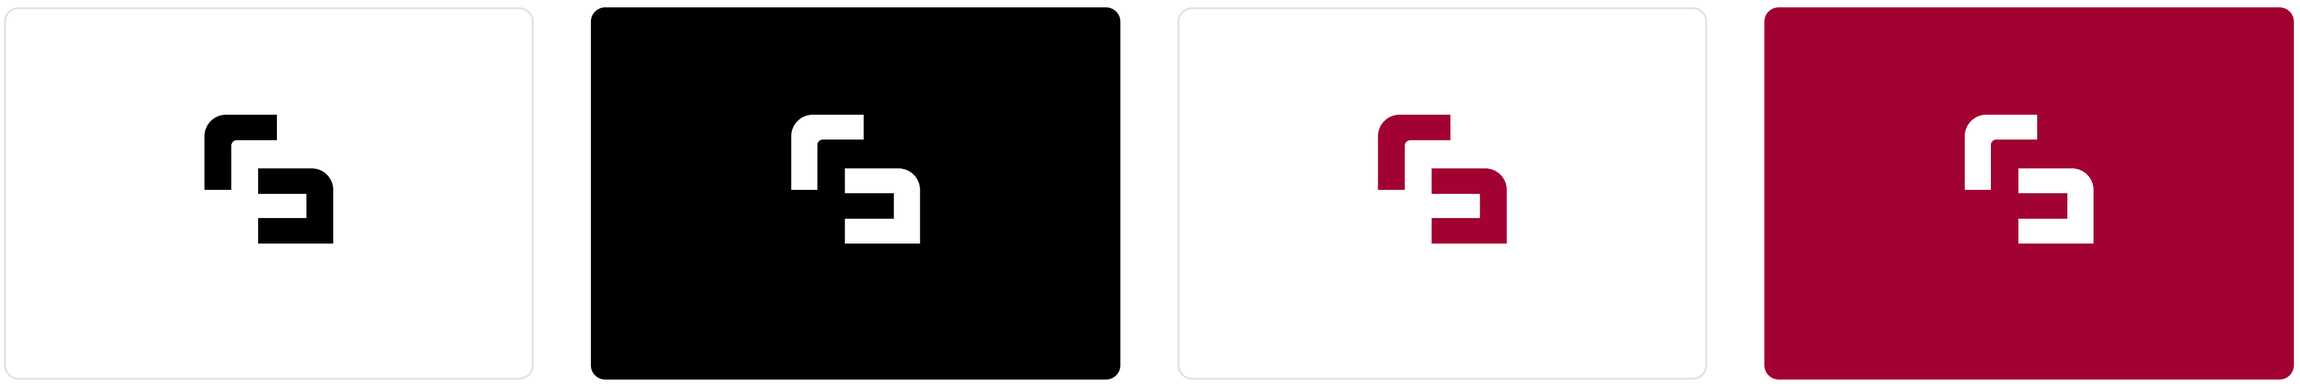
Keep at least 1x beyond the visible artwork.
The SVG already includes 32 units of padding.
At 32 px: add 1 px outside the symbol canvas.

02 / THE RIGHT CUT AT THE RIGHT SIZE

16 px · 20 px · 24 px · 32 px · 48 px · 64 px · 96 px

16–24 px → small cut. 32 px and above → standard. Horizontal lockup ≥ 144 px; stacked ≥ 160 px.

03 / APPROVED PAIRS



Black / white

White / black

Burgundy / white

White / burgundy

04 / KEEP THE SIGNATURE

## Keep

The two pieces, fixed orientation,
locked spacing and original proportions.

## Avoid

Stretching, rotation, reassembly,
shadows, gradients and noisy backgrounds.

## Reserve

Burgundy for a small accent.
Never burgundy on black at small sizes.

---

05 / HANDOFF NOTES

Inter SemiBold base + redrawn F. Final logos are paths, not live text.
Screen proofs are complete; physical print, Pantone and trademark clearance are not.
Workbench-only approval. Nothing has been applied to the live app.
